

A statement from Lumos to Pine Ridge Residents:

Lumos is a 100% Fiber Optic Internet provider serving hundreds of thousands of households across the Carolinas and Virginia. We are so excited to start working in the Town of Pine Ridge! Our plans range from 500 Mbps up to 2 GB and start at \$50 per month. As the first provider of fiber optic technology in the region, we are proud to offer residents significantly faster upload and download speeds than traditional cable or DSL.

We understand that construction can be a disruptive process, and we thank the residents of Pine Ridge for their continued cooperation. Our crews go above and beyond to ensure compliance with safety and regulatory standards that ensure we make the most minor impact possible when laying fiber.

Lumos is permitted to access designated utility easements or the right-of-way. This is the strip of land running along the street, sidewalk, rear lot line, or between two lots. Construction crews complete work in a timely manner, and once complete, the clean-up crews are typically there the next day to restore the area.

At Lumos, we believe that all communities should have access to a network advanced enough for their work, school, health, entertainment and more! To learn more about the construction process or sign up to be notified when Lumos is available in your area, please visit www.lumosfiber.com/builtforthefuture
